

My name is Harvey Theobald. I drive semi from Wisconsin to Texas all year round. XM Satellite Radio benefits me, so that I know what the weather is in other areas. It provides variety and quality that are not available on any other station. I pay for these services, and it should not be up to the National Association of Broadcasters to decide what I listen to. Please reject the NAB's petition 04-160 and support XM's ability to provide this programming that is so helpful to me.
